YATO Professional compact track excavators

YATO mini excavators are machines designed for professionals who refuse to compromise. Regardless of the model, every machine guarantees peak operational performance thanks to Japanese YANMAR power units and advanced industrial-grade hydraulic systems.

YT-86305

YT-86300

YT-86305

Designed for intensive earthmoving, roadwork,and foundation projects. It offers 60% more digging force than the YT-86300 and a significantly longer arm reach while maintaining excellent stability.

- *Power: a massive 24.5 kN breakout force allows for efficient operation in hard, clay-heavy soil.*
- *Reach: a digging reach of over 4.5 meters reduces the need for frequent machine repositioning.*
- *Stability: a wider chassis and higher mass guarantee steady operation with heavy attachments.*
- *Engine: the YANMAR 3TNV80F (15.2 kW) provides ample power reserves in all conditions.*

YT-86300

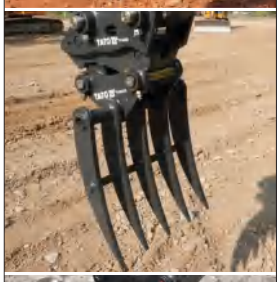

Ideal for utility installations, landscaping, and indoor projects. Thanks to the adjustable track width (starting at just 95 cm), it accesses areas where other machines simply cannot fit.

- *Compact Geometry: perfect for installation and gardening work.*
- *Low Ground Pressure: only 30 kPa, minimizing surface damage (e.g., on lawns).*
- *YANMAR Reliability: low fuel consumption from the 3-cylinder diesel engine.*
- *Year-Round Comfort: fully enclosed, heated cabin equipped with radio and ventilation.*
